GREGORY'S SEEDS

ESTABLISHED 1856

1945 Special Prices for Everyone

We pay postage or freight, our option.

10% cash discount on cash order placed in January.

GREGORY'S GUARANTEE

1. That all seeds shall reach our customers in good condition.

2. We guarantee the vitality and purity of our seeds to the full amount of the purchase price. Your money back within one year if you are not satisfied with results.

3. It is agreed that in no case shall J. J. H. Gregory & Son be liable for more than purchase price of the seed.
We make no charge for cloth bags.

Our business was started in 1856 and this eighty-ninth year we take pleasure in presenting our Special Prices to Every One for consideration. Expenses have been cut to enable us to keep our prices within the reach of all. We appreciate your patronage and will furnish you with seeds of the very highest quality. Where it is possible every family should plant a garden. What you cannot use green put up in glass jars for winter. As the war continues our government will need the greater part of the crops grown in the country to feed the Army, Navy and all our allies.

There isn't a large supply of seed. Many varieties of seeds are extremely short and where it has been possible we have lowered prices. Please notice on orders received in January when cash accompanies orders we will allow a cash discount of 10 percent; also we deliver to all parts of the country at these prices and make no charge for cloth bags. *Place your orders early and be sure of your supply.* It only takes a small piece of ground to produce enough to keep a family a good part of the year. U. S. food administrator states the food production for 1945 will be as important to the war and to the peace as it was in 1944.

Yours for a prosperous season,

J. J. H. GREGORY & SON,
EDGAR GREGORY, Prop.
